## Horizon 2020

- Starting; Consolidator; and Advanced Grants
- Proof of Concept for ERC PIs
- Overhead: 25%
- Extension of restrictions based on the outcome of the evaluation of the 2014 calls
- Open access is now mandatory
- Templates for CV (flexible)

## WP2016

- **Elegibility criteria: Reference date will be 01.01.2016**
- No budget pre-distribution per domain: PE, LS, SH
- Update of panel titles, subtitles and descriptors
- Restrictions only for STEP1
- Restrictions for misconduct
- Opt in open DATA pilot

# Resubmission Restrictions

- A Principal Investigator whose proposal was evaluated as **category C** in the Starting, Consolidator or Advanced Grant calls for proposals under Work Programme 2014 or 2015 may not submit a proposal to the Starting, Consolidator or Advanced Grant calls for proposals made under Work Programme 2016.
- A Principal Investigator whose proposal was evaluated as **category B at step1 in** the Starting, Consolidator or Advanced Grant calls for proposals under Work Programme 2015 may not submit a proposal to the Starting, Consolidator or Advanced Grant calls for proposals made under Work Programme 2016
- A Principal Investigator whose proposal was evaluated as **category B at step2 in** the Starting, Consolidator or Advanced Grant calls for proposals under Work Programme 2015 may submit a proposal to the Starting, Consolidator or Advanced Grant calls for proposals made under Work Programme 2016.
- A Principal Investigator whose proposal is finally evaluated as **category A** in the Starting, Consolidator or Advanced Grant calls for proposals under Work Programme 2015 may submit a proposal to the Starting, Consolidator or Advanced Grant calls for proposals made under Work Programme 2016.

## Evaluation Panels

[Tweet](#)

The selection of scientific and scholarly proposals for ERC funding is based on international peer review with excellence as the sole criterion. The ERC uses a typical panel-based system, in which panels of high-level scientists and/or scholars make recommendations for funding.

### Domain and panel structure

The ERC panel structure consists of 25 panels.

The panels of each grant are grouped into three disciplinary domains that cover the entire spectrum of science, engineering and scholarship:

1. Social sciences and Humanities (SH)
2. Life sciences (LS)
3. Physical and Engineering Sciences (PE)

Research proposals of a multi and inter disciplinary nature are strongly encouraged throughout the ERC's schemes. Proposals of this type are evaluated by the ERC's regular panels with the appropriate external expertise.

### Composition of the panels

Each ERC panel consists of a chairman and 10-16 members. The Panel Chair and the Panel Members are selected on the basis of their scientific reputation.

In addition to the Panel Members (who act as "generalists"), the ERC evaluations rely on input from remote experts external to the panel, called referees. They are scientists and scholars who bring in the necessary specialised expertise.

Before the deadline of a call, the names of the panel chairs are published on the ERC website. Similarly, the names of panel members are published, however, after the evaluation process is concluded.

## ERC Funded Projects

**Important notice:** Due to upgrade and maintenance of the ERC funded projects section, projects signed in 2014 may not appear in the search. We apologize for the inconvenience, but this page will be fully accessible soon.

The ERC operates according to an "investigator-driven", or "bottom-up", approach, allowing researchers to identify new opportunities in any field of research. Accordingly the portfolio of ERC funded projects spans a wide range of topics and research questions.

Since 2007, more than **4,500 projects** have been selected to receive ERC funding throughout the EU Member States and the associated countries. The ERC has received over **43,000 project proposals** for its calls.

You can use the menu on the left to search quickly and easy ERC funded projects.

- Projects can be filtered according to: funding schemes, call year, and/or country of host institution.
- The "keywords" free text filter can be used to search by project acronym, panel abbreviations (e.g. LS1, PE3 etc...), scientific disciplines, or others. *For the panel abbreviations, see [here](#) the overview of panel descriptors.*

Information displayed is automatically updated through the information available on the **CORDIS** platform.

*Please note that only funded projects, whose grant agreements have been signed, appear in this database. For this reason, the total number of projects in this database may differ from the figures provided in the statistics section which include also projects selected for funding whose grant agreements have not been signed yet.*

Consejo Europeo de Investigación (ERC)

Segunda edición del servicio de revisiones ERC

Oficina Europea, 23 de octubre de 2014

erc  
European Research Council  
Established by the European Commission

El servicio, impulsado por la Secretaría de Estado de Investigación e Innovación, será gestionado por la Oficina Europea, que será la receptora de las propuestas y de los comentarios de los expertos a través del buzón: [revisiones.erc@oficinaeuropea.es](mailto:revisiones.erc@oficinaeuropea.es)

La Secretaría de Estado de Investigación e Innovación pone a disposición de los investigadores más jóvenes, por segundo año, un servicio de revisión de propuestas para el Consejo Europeo de Investigación (ERC), con el objetivo de ayudar a mejorar la calidad de las mismas y así competir con más garantías en las **nuevas convocatorias 2015 del ERC**.

La revisión estará a cargo de evaluadores expertos, con amplia experiencia en evaluaciones nacionales e internacionales y colaboradores de la SEIDI. Los evaluadores realizarán recomendaciones y sugerencias de mejora en la presentación de la propuesta, sin prejuzgar el resultado que pueda obtenerse posteriormente en las convocatorias del ERC. **No se trata por tanto de una evaluación científico-técnica estricta, sino de una revisión crítica de la propuesta escrita.** Los evaluadores están además sujetos a un acuerdo de confidencialidad y ausencia de conflicto de interés con respecto a las propuestas que reciban.

El servicio será gestionado por la Oficina Europea de la Fundación Española de Ciencia y Tecnología, que será la
