

Name: Elisa Gómez Gil

Academic background:

2016- *Graduated in Biotechnology*. Universidad de Murcia. Spain.

2016-2017 *Master's student in Molecular Biology and Biotechnology*. Universidad de Murcia. Spain.

2017-... *PhD student in Molecular Biology*. Department of Genetics and Microbiology, Universidad de Murcia. Spain.

Current research interests:

i- Functional crosstalk between the cell integrity MAPK cascade with other signaling networks (polarity; phosphoinositide; TOR).

ii- Identification and functional characterization of upstream activators and downstream targets of MAPK cascades (SAPK, CIP) in fission yeast.
