

**2<sup>ND</sup> On-line Plastination Seminar (bilingual)**

**SILICONE PLASTINATION S-10 TECHNIQUE**

**PROGRAM (12 hours)**

**Monday 23<sup>th</sup> May**

**Timetable**

- **Welcome and Seminar Presentation** 14.00 - 14.30 (synchronic on-line session)
- **Module I Introduction to plastination**
  - Videos 14.30 - 15.00
  - **Task I** 14:00 - 15.45
    - Activity 1: Build a plastination lab
  - **Peer evaluation Task I** 15.45 - 17:30
    - Activity 1
  - **Questions and discussion** 16.15 - 17.15 (synchronic on-line session)
  - **Test I** 17.15 - 17.30
- **Module II Fixation & Dehydration**
  - Videos 17.30 - 18.15
  - **Task II** 18:00 - 18.45
    - Activity 2: Dehydration routine
    - Activity 3: Acetone purity reading quiz
  - **Peer evaluation Task II** 18.45 - 20:30
    - Activity 2
  - **Questions and discussion** 19:15 - 20.15 (synchronic on-line session)
  - **Test II** 20.15 - 20.30

**Tuesday 24<sup>th</sup> May**

- **Module III Impregnation**
  - Videos 14.30 - 15.30
  - **Task III** 15:00 - 16.00
    - Activity 4: Design an impregnation circuit
    - Activity 5: Different impregnation situations
  - **Peer evaluation Task III** 16.00 - 18:00
    - Activity 4
    - Activity 5
  - **Questions and discussion** 16.30 - 17.45 (synchronic on-line session)
  - **Test III** 17.45 - 18.00
- **Module IV Polymerization-Curing**
  - Videos 18.00 - 18.30
  - **Questions and discussion** 18.30 - 19.30
  - **Test IV** 19.30 - 19.45
- **Conclusions and Closure** 19.45 - 20.00 (synchronic on-line session)

**METHODOLOGY**

- ☞ Teaching environment: Virtual Campus and Zoom Platform
- ☞ Direct supervision: synchronic sessions for questions and discussion (5h)
- ☞ Videos (3h)
- ☞ Tasks: proposed activities (1h 30')
- ☞ Peer evaluation of activities (1h 30')
- ☞ Multiple choice tests (1h)
