

Amendment to XV/E/9389/96

**EUROPEAN ASSOCIATION OF ESTABLISHMENTS
FOR VETERINARY TRAINING**

**Note to the Working Party of the Advisory Committee
on Veterinary Training, meeting on 18 March 1997**

Subject: Visit report on the Faculty of Murcia (XV/E/9389/96)

Although the Working Party did not discuss the substance of this report at its meeting in January, the members of the Education Committee of the EAEVE had an exchange of views on the subject. They considered that more emphasis should be given in the report to weaknesses in clinical training at the Faculty. With the agreement of the chairman of the team of visiting experts, the EAEVE therefore proposes that the report be amended as follows.

The single suggestion in 1 of the Summary of Suggestions on page 40 of XV/E/9389/96 is replaced by:

1. The present clinical facilities, especially in regard to companion animals are inadequate for the clinical teaching of veterinary students.
2. The current number of clinical cases, with the exception of swine, are not sufficient to permit adequate clinical training.

The changes may require corresponding changes in the main text of the report. Redrafting proposals for this purpose will be made at the Working Party meeting.
