

OPINIONES DE ALUMNOS VISITANTES

Bartłomiej Borowski, from Poland: My stay in Murcia was incredible! It was the best time in my life. I have never had so many good memories in such a short time before. First thing which stood out was the atmosphere at the university. Nice and helpful lectures who could share their knowledge in an interesting and professional way at the same time made an extraordinary feeling. Also students I met were very nice and spontaneous people with whom I could spend a great and unforgettable time. To sum up, my Erasmus in Murcia was an experience which I will never forget. I would definitely come back there and spend such an enjoyable time again.

Joséphine Jourdan, from France: Last year, from September 2017 to June 2019, I studied at the University of Murcia. I came from Caen, in France, in order to do my third year degree in Economics. So, I chose my classes in the department “Economía y empresa”. It was a great experience. I took my classes in Spanish, not in English, it made it easier to understand and to talk the language in the long term. My advice for future Erasmus students is to make efforts and not give up. At the end of the year I realized that it had not been easy, but I made it and it was worthwhile. And now, I am proud because I did not give up.

Jackson Engstrom, from U.S.A.: Nothing could have prepared me for my studies here at the University of Murcia. Studying abroad to this school proved to be equally challenging as it was rewarding, but at no point would I say that I regret my decision to attend this University. The students and the staff were very friendly. Moreover, Murcia provided me an opportunity to learn different perspectives and challenge myself in a way I never would in the U.S. I have loved my time at University of Murcia and in Spain. I would highly recommend taking advantage of the opportunity to study here if you are given the chance.

Erisa Ngjeci, from Albania (Studying in Bulgaria): I took my classes at the Business and Economics Faculty, along with other Spanish and Erasmus students. The classes I took were organized differently from what I was used to back at my home institution at the American University in Bulgaria, however they did not fail to remain interesting. The professors were very understanding and loved to include us in their discussions and made sure we knew they would help us with issues related to our subjects or not. The city is lovely and will always hold a special place in my heart, as it gave me new friends from all over. I hope one day I find my way back to Murcia.
