CENTRO SOCIAL UNIVERSITARIO

## Vice-rectorship of Students and Employment from the University of Murcia

The CSU aims for the development of a common space where both, the student community and society, intend to work out initiatives on information, culture, services and leisure while stressing the role of users as promoters of their own activities, which we believe to be of paramount importance in the comprehensive education process

Since its foundation in 2002, our center has been open not only to the university community, but also to the whole society so they are able to develop any kind of activity: leisure, cultural, artistic, formative and educational.

Our facilities are located in the northern zone of Espinardo Campus, in a 5.000 square meters multifunctional building equipped, among others, with a 350-seat auditorium, a number of multipurpose halls, meeting halls, university associations' offices, a computer lab, a café and a cafeteria.

Owing to its installations and services, the CSU is a unique center among European universities.

## SPACES AND SERVICES

The CSU, located at the heart of the main Campus, offers quality facilities and makes the following spaces, resources and services available for the community:
