FX POLLS APP

The FX Polls app provides exchange rate forecast data for 44 currency pairs.

- Capture exchange rate expectation for 1 month, 3 month, 6 month and 12 month horizons
- Leverage StarMine's SmartEstimates to obtain even more accuracy than the Reuters Poll results themselves
- Monitor forecasters with a proven track record of accuracy for predicting future exchange rates
- Overlay one currency forecast with another to look for correlations / inverse correlations between future exchange rates

Enjoy the 2 minute [training video](#) that showcases this feature.
To access: The FX Polls App is available from the App Library or type "FX Polls" in the search box.
