

Postdoctoral Researcher Positions in Cognitive Computing Systems or Graphics Processors Architecture

About ARCO Research Group

The ARCO research group of the Universitat Politecnica de Catalunya at Barcelona (Spain) is a world class leader in computer architecture research, with strong links with worldwide academia and industry. It has numerous publications in the most prestigious international symposia and journals, and many successful collaborations with industry. Current research of the group focuses on architectures for cognitive computing systems and graphics processors.

Key Duties

- Become a technical lead of the ARCO research group
- Advise ARCO PhD students
- Participate in dissemination activities

Requirements

- PhD in the areas of Computer Science and Engineering
- Excellent research skills
- Leadership skills to drive research projects and teams

Conditions

- The position is located at the Computer Architecture Department of UPC in Barcelona
- We offer a full-time contract in a leading-edge research environment
- Duration: up to 4.5 years
- Salary: we offer a competitive salary commensurate with the qualifications and experience of the candidate.

Application Procedure

Interested candidates, please contact:

Prof. Antonio Gonzalez

Email: antonio@ac.upc.edu

Deadline

The positions will remain open until suitable candidates have been hired. Applications are regularly reviewed and potential candidates are contacted.
