

G9 2024 LIVE: Open Science Open Data

Wed, Jun 19, 2024 5:00 PM - 6:00 PM CEST

Show in My Time Zone

Open science is a practice that allows for greater access and more communication and collaboration among researchers. Open Science is more transparent and involves a collaborative sharing of knowledge broadly. In this webinar our academic expert looks at Open Science in detail and explains how it differentiates from Open Access.

About our expert:

Despina Sanoudou, Ph.D. (Cambridge), FACMG, Professor at the Medical School of the National and Kapodistrian University of Athens

An established researcher, public speaker, and published author, Dr. Sanoudou is an award-winning medical researcher with over 130 publications in renowned scientific journals and books, an H-index of 43, and over 6,200 citations. She is the Head of the Clinical Genomics and Pharmacogenomics Unit at the 4th Department of Internal Medicine and collaborating Faculty at the Biomedical Research Foundation of the Academy of Athens. Dr. Sanoudou received her Ph.D. at the University of Cambridge and served as Faculty at the Harvard Medical School. She has also worked as a coordinator for an international genomics/pharmacogenomics program and as a fellow with Genzyme and Brigham and Women's Hospital. She has received more than 20 competitive research grants from international or national organizations. As a Publication and Training Consultant with Enago Academy, she conducts webinars and workshops to help researchers understand the nuances of academic writing and publishing. To date, Dr. Sanoudou has presented at over 400 national and international meetings, served as a peer reviewer for 50 international journals, and chaired several seminars. She is also on the editorial board of multiple international scientific journals.
